

CONCATENATE

Guide Section: [Processing Object Data](#) | **EASAP Tree:** [DATA PROCESSING Branch](#)

CONCATENATE combines two or more lists by concatenating them together.

For example, if we have the **LIST**'s: X, Y and Z, all of size N, we can **CONCATENATE** them into a single **LIST** with the values ordered as follows:

- $x_1, x_2, \dots, x_N, y_1, y_2, \dots, y_N, z_1, z_2, \dots, z_N$

 CONCATENATE
Optional Parameters:
Lists: One or more existing LIST 's
